ClearScale Managed Services

Your Trusted Managed Services Provider

Focus on your business instead of cloud operations when you enlist ClearScale Managed Services. With our robust tool set and experienced engineers, the ClearScale Managed Services team can help you reduce your costs and improve the efficiency of your cloud infrastructure.

Our trusted team provides 24/7 monitoring and services related to all AWS products. Select from a variety of service tiers to meet your specific managed services needs and budget.

QUIK!

"ClearScale Managed Services gives our executive team peace of mind to know that a team of people are always monitoring our systems to ensure the highest levels of uptime and business continuity. We have come to rely upon ClearScale to keep our systems running, our teams notified of any events and to optimize our systems over time. The ClearScale team is very responsive and always courteous, and has proven to be an excellent partner."

Our Services

Monitoring

ClearScale will set up 24/7 monitors and alerts for your cloud infrastructure, applications, and dependent services to help you ensure everything is available, healthy, secure, and efficient.

24x7x365 Coverage

ClearScale Managed Services offers 24/7 monitoring, full platform management, and a wide range of services to optimize your AWS products. Our support team is also available 24/7.

Fast Response SLAs

Whether your ticket or incident is considered "Low Priority" or "Urgent" our team is dedicated to providing a timely and helpful response.

Auditing & Cost Optimization

Our team will audit your account and provide a list of recommendations for optimizing your cloud costs including rightsizing, storage usage, billing monitoring, and more.

About ClearScale

Founded in 2011, ClearScale provides cloud-native consulting solutions and managed services designed exclusively for Amazon Web Services (AWS). Our expert team has helped hundreds of customers optimize their businesses through AWS services and trusted managed services.

Customer Highlights

VIZIO

ClearScale is improving and optimizing Vizio's AWS infrastructure by finding and eliminating performance bottlenecks, conducting maintenance and upgrades, and providing monitoring services. Vizio benefits from having a 24/7 support team at its disposal, consisting of AWS cloud technology experts.

ZEISS

ClearScale is optimizing the Zeiss AWS environment to meet the company's heavy workloads. ClearScale configured backups, added monitoring, implemented new security policies, and provided custom audits. Zeiss benefits from having a central portal to monitor the health and performance of its environment.

community brands

ClearScale provides multi-account monitoring for Community Brands, along with detailed infrastructure audit reports, security patching, VPN migration, and database monitoring improvements. Community Brands benefits from great response times from a ClearScale team that is always ready to help with professional cloud services.

Dedicated Hours with a Dedicated Team

On top of your standard support, you have a package of hours which can be utilized for any of the following tasks for your environment. This allows you greater flexibility and control as tasks and needs arise.

Custom Monitoring

Application & Infrastructure Performance Tuning

DevOps & Automation Tasks

Infrastructure Maintenance & Changes
